SUBJECT INDEX

Adaptive systems
Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.

Aerospace engineering
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

ASCE Conferences
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

ASCE Policy
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Automation
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Axial loads
Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Beams
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Bending
Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Business administration
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Comparative studies
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Composite materials
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Composite structures
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Concrete
Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Concrete, reinforced
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Connections
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Constraints
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Construction
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

Construction equipment
Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Control
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Corporate planning
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Cost effectiveness
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Costs
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Crack propagation
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Cracks
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Curvature
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Damage
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Damage assessment
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Damages
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Degradation
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Design
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Dynamic loads
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Dynamic models
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Dynamics
Analysis of Class of Nonlinear System under Deterministic and Stochastic Excitations, Michael A. Tognarelli and Ahsan Kareem, AS Oct. 97, p162-172.

Earthmoving
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Economic development
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Education
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Eigenvalues
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Elasticity
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Energy sources
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Excavation
Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Excitation
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Extraterrestrial bases
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Failures
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Fibers
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Flexure
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Fluid-structure interaction
Analysis of Class of Nonlinear System under Deterministic and Stochastic Excitations, Michael A. Tognarelli and Ahsan Kareem, AS Oct. 97, p162-172.

Flutter
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Gravity
Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

Grid systems
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Imaging techniques
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Infrastructure
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Integral equations
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Intelligent structures
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

SUBJECT INDEX

Adaptive systems
Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.

Aerospace engineering
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

ASCE Conferences
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

ASCE Policy
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Automation
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Axial loads
Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Beams
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Bending
Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Business administration
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Comparative studies
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Composite materials
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Composite structures
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Concrete
Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Concrete, reinforced
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Connections
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Constraints
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Construction
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

Construction equipment
Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Control
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Corporate planning
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Cost effectiveness
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Costs
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Crack propagation
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Cracks
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Curvature
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Damage
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Damage assessment
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Damages
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Degradation
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Design
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Dynamic loads
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Dynamic models
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Dynamics
Analysis of Class of Nonlinear System under Deterministic and Stochastic Excitations, Michael A. Tognarelli and Ahsan Kareem, AS Oct. 97, p162-172.

Earthmoving
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Economic development
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Education
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Eigenvalues
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Elasticity
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Energy sources
Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Excavation
Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Excitation
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Extraterrestrial bases
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Failures
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Fibers
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Flexure
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Fluid-structure interaction
Analysis of Class of Nonlinear System under Deterministic and Stochastic Excitations, Michael A. Tognarelli and Ahsan Kareem, AS Oct. 97, p162-172.

Flutter
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Gravity
Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

Grid systems
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Imaging techniques
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Infrastructure
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Integral equations
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Intelligent structures
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Interactions
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Interfaces
Analysis of Multiple Cracks Close to Bimaterial Interface, Ming Zhou and Wieslaw K. Binienda, AS Jan. 97, p16-26.

Kinematics
State of Art in Automation of Earthmoving, Sanjiv Singh, AS Oct. 97, p179-188.

Lasers
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Launching
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Loads
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Maintenance
Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

Manufacturing
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Mass
Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Materials
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Microstructure
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

Minimum weight design
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Modeling
Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Moon
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Excavation Forces in Reduced Gravity Environment, Walter W. Boles, Wesley D. Scott and John F. Connolly, AS Apr. 97, p99-103.

Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Mortars
Microtomographic Measurements of Internal Damage in Portland-Cement-Based Composites, Eric N. Landis, Edwin N. Nagy and Denis T. Keane, AS Jan. 97, p2-6.

NASA
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Nonlinear response
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Nonlinear systems
Analysis of Class of Nonlinear System under Deterministic and Stochastic Excitations, Michael A. Tognarelli and Ahsan Kareem, AS Oct. 97, p162-172.

Numerical analysis
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.

Optimal control methods
Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.

Optimization
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Parallel processing
Robust Parallel Algorithms for Solution of Riccati Equation, A. Saleh and H. Adeli, AS July 97, p126-133.

Parameters
Lunar Base Parametric Model, Peter Eckart, AS Apr. 97, p80-90.

Polymers
Flexure of Concrete Beams Reinforced with Advanced Composite Orthogrids, Craig W. Smart and David W. Jensen, AS Jan. 97, p7-15.

Predictions
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Recreational facilities
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Remote control
Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Resource development
Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Resources
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Robotics
Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Sandwich panels
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Sandwich structures
Elasticity Solutions for Hertzian Loaded Composite Sandwich Plates, Eric J. Herup and Anthony N. Palazotto, AS Jan. 97, p27-37.

Site selection
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Site selection studies
Considerations for Return to the Moon and Lunar Base Site Selection Workshops, Lawrence A. Taylor and Dong-Hwa S. Taylor, AS Apr. 97, p68-79.

Solar energy
Proposed Remote-Control, Solar-Powered Concrete Production Experiment on the Moon, T. D. Lin, Steven B. Skaar and Joseph J. O'Gallagher, AS Apr. 97, p104-409.

Space exploration
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Editorial, Stewart W. Johnson and Anis Johnson, AS Apr. 97, p49-52.

Interlune-Intermars Business Initiative: Returning to Deep Space, Harrison H. Schmitt, AS Apr. 97, p60-67.

Space stations
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Extravehicular Activity Hardware for International Space Station, Jeff Dutton, AS Apr. 97, p91-93.

Stress analysis
Approach to Analysis of Composite Structures Subjected to Action of High-Energy Laser Beam, Victor Birman, AS Jan. 97, p38-42.

Structural elements
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Structural response
Damage Detection and Damage Detectability—Analysis and Experiments, Yikas Juneja, R. T. Haftka and H. H. Cudney, AS Oct. 97, p135-142.

Structures
Design Optimization of Airframe Structures, V. A. Tischler, V. B. Venkayya and G. Bharatram, AS July 97, p111-118.

Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.

System analysis
Linear and Nonlinear Analysis of Complex Structures Via Individual Components, A. Majed and P. D. Spanos, AS Oct. 97, p173-178.

Technology
Access to Space—Systems and Technologies to Support It, John J. Bertin and Stewart W. Johnson, AS Apr. 97, p53-59.

Technology transfer
Editorial, David W. Jensen and Marek-Jerzy Pindera, AS Jan. 97, p1.

Thermal gradient
Curved Sandwich Panels Subjected to Temperature Gradient and Mechanical Loads, Ahmed K. Noor, James H. Starnes, Jr. and Jeanne M. Peters, AS Oct. 97, p143-161.

Tourism
Design and Construction of Zero-Gravity Gymnasium, Patrick Collins, Sunao Kuwahara, Tsuyoshi Nishimura and Takashi Fukuoka, AS Apr. 97, p94-98.

Tubes
Degradation of Elastic Response of MMC Laminated Tubes Due to Internal Fiber Cracks, Sarah C. Baxter and Marek-Jerzy Pindera, AS Jan. 97, p43-48.

Vibration control
Optimal Topology/Actuator Placement Design of Structures Using SA, Xiaojian Liu, D. W. Begg and D. R. Matravers, AS July 97, p119-125.
